June 13, 2013

Dear Valued Customer, Technology Partner or Supplier Partner:

U.S. Robotics is pleased to announce that effective Friday, June 7, 2013 U.S. Robotics Corporation was acquired by UNICOM® Systems, Inc. from Platinum Equity, and is now one of the technology divisions of UNICOM Global. We are very excited to have the renowned brand and technology innovation of U.S. Robotics join the UNICOM Global family of companies, which includes over 25 corporate entities and several IT related companies serving customers throughout the world since 1981.

Corry Hong, Founder, President and CEO of UNICOM Global

U.S. Robotics customers, technology partners and supplier partners will benefit from UNICOM Global's leadership, global presence, and existing relationships with Fortune 500 and Global 2000 customers as well as with the U.S. Government and many ISV and OEM strategic partners.

In addition to the impressive depth of technical talent, we are also excited to introduce you to UNICOM Capital, a financial services arm of UNICOM Global. UNICOM Global's depth of experience in M&A has built an array of services to augment your business, including equipment financing, floor plan financing and corporate financial services. UNICOM Capital offers global business strategies, management independence, integration planning and implementation, and privatization options. Please be assured that as synergies in markets and capabilities arise, we will continue to announce such additional offerings and how we may help you meet the challenges of your business.

We're looking forward to the integration and new opportunities as U.S. Robotics integrates with UNICOM Global and for the potential future opportunities that lie ahead. Stay tuned for updates. **We value our relationships with our partners, and we assure each of you that great care will be taken to ensure this transition is a smooth one.** If you have any questions, please contact your U.S. Robotics representative.

Sincerely,

/s/ *Corry Hong*

Corry Hong
President & CEO

About USRobotics www.usr.com

For more than three decades, millions of businesses and consumers have relied on USRobotics for dependable internet access. Today, USRobotics endeavors to continue the longstanding tradition of supporting successful businesses by providing equipment for data transfer, remote management, broadband backup, point-of-sale, and machine-to-machine functions. The company strives to support the latest technologies through the development of new tools, which are known for their mobility, convenience, and reliability. USRobotics products are designed for multiple environments, including data centers, remote networks, embedded solutions, and small-to medium-sized business markets.
