The USRobotics® Courier® 56K Business Modem with V.Everything® and V.Everywhere® technology offers the perfect solution for both ‘Out of Band Management’ of networks or ‘Point of Sale’ applications. Many modems claim reliability, but few match the real-world performance of Courier modems. Even fewer offer the multitude of advanced business features found on this modem: global usage, Carrier Loss Redial, and Dial and Dialback Security. Remote management capabilities let you configure, set up, update or troubleshoot your modems from almost anywhere. When failure is not an option, you need the world-class capabilities that only come from the top of the USRobotics product line.
**Dial and Dialback Security**

User or application dials up Courier

Password is entered and call is disconnected

Courier dials back pre-programmed number
